The Essential Difference front page | Science | guardian.co.uk
We all appreciate that there are differences in the typical psychology of men and women. Yet underlying these subtle differences, Simon Baron-Cohen believes, there is one essential difference, and it affects everything we do: Men have a tendency to analyze and construct systems while women are inclined to empathize. With fresh evidence for these claims, Baron-Cohen explores how these sex ...

Truth About The Male And ...
Female and male brain types.
Baron-Cohen is a Cambridge
psychology professor and leading
autism specialist. At the start of
The Essential Difference, he
immediately states his theory that
the female and male brain types
are predominantly hard-wired
differently: the female for
empathising and the male for
systemising. Empathising is an
emotion triggered by another
person's emotion; systemising ...
