The Explorer: Amazon.co.uk: James Smythe: 9780007456765: Books
"The Explorer by James Smythe is quiet, dark book which focuses on the dark and quiet of space...It may not be a flashy...but it is a fascinating character study that could only exist in a science-fictional world." (io9.com) "Beautifully written, creepy as hell.

The Explorer, a book by James Smythe | Book review
The Explorer is not exactly a hard science fiction novel; Cormac's cluelessness stands in for Smythe's and for our own, and we don't get so much as a description of the ship. (There were also far too many "panels" and "crates" full of "spare parts" for my liking - not to mention a ducting system full of convenient, plot ...

The Explorer James Smythe
James Smythe is a incredibly talented writer. The plot is very intricate and complex but it's finely woven to form this sci-fi masterpiece. The Explorer follows Cormac Easton, a journalist, who was one of the very few people on earth picked to go up into deep space. Once the crew wake up in space, they find their captain dead.

THE EXPLORER by James Smythe | Kirkus Reviews
The Explorer by James Smythe - review. But there are only a limited number of ways a space expedition can mess up: technical glitch, psychotic ship's computer, mad crewperson, hostile alien. It is to James Smythe's credit, then, that his new novel manages to pay its respects to the conventions of the astronaut-in-peril genre while still doing something new, and memorable, with it.

The Explorer by James Smythe - The Tattooed Book
Smythe's concept of space travel seems to be something like a giant locomotive sliding through space on invisible rails, so that if you turn the engines off and gently apply the brakes, the ship will coast to a stop. If you step outside while the ship's in motion, you'll be torn off and flung away into space.
