*THE FEELING OF WHAT HAPPENS: - William H. Calvin
There have been many ambitious and important books on the problem of consciousness in the past few years. None has quite the philosophical sophistication and neurophysical knowledge of this one. One of the world's leading experts on the neurophysiology of emotion, professor Damasio shows how our consciousness developed out of the development of emotion brilliantly wide ranging, with ...*

consciousness books. But Damasio's really impressive feat is that he integrates all of this with emotions and feelings, making them play a central role in the experience of consciousness.

The Feeling Of What Happens

Consciousness is the feeling of what happens-our mind noticing the body's reaction to the world and responding to that experience. Without our bodies there can be no consciousness, which is at heart a mechanism for survival that engages body, emotion, and mind in the glorious spiral of human life.
