The Foundations of Modern Science in the Middle Ages: Their Religious, Institutional and Intellectual Contexts (Cambridge Studies in the History of Science)

The Foundations of Modern Science in the Middle Ages ...
To the medieval thinker, man was the center of creation, and all of nature existed purely for his benefit. The shift from the philosophy of the Middle Ages to the modern view of humanity's less central place in the universe ranks as the greatest revolution in the history of Western thought, and this classic in the philosophy of science describes and analyzes how that profound change occurred.

Medieval History of Science and Religion
But Indian ideas that place the observer at center prefigure the conceptual foundations of modern physics, and this is acknowledged by the greatest physicists of the twentieth century.

Edward Grant - Wikipedia
Muslim chemists and alchemists played an important role in the foundation of modern chemistry. Scholars such as Will Durant and Fielding H. Garrison considered Muslim chemists to be the founders of chemistry. In particular, Jabir ibn Hayyan (c. 721 – 815) is "considered by many to be the father of chemistry".

History of science - The rise of modern science | Britannica
In God's Philosophers, you will not only learn the truth about physics, but also how medieval scholars overturned the false wisdom of ancient Greece to lay the foundations of modern science. The Genesis of Science is written by a historian with degrees in physics and history from Oxford and London universities.

The Metaphysical Foundations of Modern Science by Edwin ...
In his book The Foundations of Modern Science in the Middle Ages: Their Religious, Institutional and Intellectual Contexts, Grant discusses the developments and discoveries that culminated in the Scientific Revolution of the 17th century. He emphasizes how the roots of modern science were planted in the ancient and medieval worlds long before the modern period, and that the Christian Latin civilization of Western Europe began the last stage of its intellectual development.
