The Geography of Thought Free Essays At first, Nisbett believed in the unanimity of human thoughts, where people think alike and their perspectives follow the same stream, based on all the conjectures of well known philosophers.

The Geography of Thought: A Review

In essence, the thesis of The Geography of Thought is that many important cognitive processes dominant in East Asian (i.e., Chinese, Japanese and Korean) cultures are substantially different from those processes in Western (i.e., American and European) cultures. This proposition explains a variety of dissimilarities in how people from each culture approach the world and each other, and it is also a partial explanation of the Great Divergence—why the modern world was created by the West ...
