The Great Influenza: The Story of the Deadliest Pandemic ...

1 The Story of Influenza OVERVIEW In the early 20th century, science was sufficiently sophisticated to anticipate that influenza, which had twice reached pandemic proportions in the late 19th century, would recur, but was largely powerless to blunt the devastating impact of the 1918 (H1N1) pandemic.

The great influenza The epic story of the deadliest plague ...

The 1918 influenza pandemic was an unusually deadly influenza pandemic, the first of the two pandemics involving H1N1 influenza virus, with the second being in 2009. It infected 500 million people around the world, including people on remote Pacific islands and in the Arctic. The death toll is estimated to have been 50 million, and possibly as high as 100 million, making it one of the deadliest epidemics in human history. Historical and epidemiological data are inadequate to identify with certai
