The Hockey Stick and the Climate Wars - Wikipedia
The Hockey Stick achieved prominence in a 2001 UN report on climate change and quickly became a central icon in the "climate wars." The real issue has never been the graph's data but rather its implied threat to those who oppose governmental regulation and other restraints to protect the environment and planet.

The Hockey Stick Illusion - Wikipedia
Hockey stick graphs present the global or hemispherical mean temperature record of the past 500 to 2000 years as shown by quantitative climate reconstructions based on climate proxy records. These reconstructions have consistently shown a slow long term cooling trend changing into relatively rapid warming in the 20th century, with the instrumental temperature record by 2000 exceeding earlier temperatures.
