Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some examples, for example, appear to be paraphrased from well-known chefs.

The Houses of Louis Kahn: George H. Marcus, William ...

"The Houses of Louis Kahn . . . provides an architectural bridge between the personal and the professional stories, focusing on the nine completed, and designs for two dozen more. The story told by the authors, George H. Marcus and William Whitaker, is one of warm client attention to the smallest domestic detail and a philosophical search for the best arrangement of rooms to call home."

Brought to Light: The Houses of Louis Kahn comprises some 60 objects, including the architect's sketches, office drawings, models, his personal papers, and archival materials drawn from Penn's Architectural Archives and several private collections, many exhibited for the first time. These objects speak to the process of how Kahn's projects were developed, are put into context by color photographs of the houses themselves, many of which are shown in their original settings.

"In the temple of science are many mansions," remarked Albert Einstein a century ago, yet in his wildest fantasies it is doubtful that he ever imagined how Louis Kahn's Salk Institute would monumentalize his metaphor. Perhaps the most globally renowned laboratory architecture, the Salk Institute (1965) marked a pinnacle in the career of Kahn.

Margaret Esherick House - Wikipedia

The story of Louis I. Kahn's final residential commission. This was his last house, and it is a masterpiece that synthesized many of the techniques he had developed. The creation of space with structure and light, the clear distinction between materials, and a deep sense of order.
