GCSE History - BBC Bitesize  
Industrialisation in the Soviet Union was a process of accelerated building-up of the industrial potential of the Soviet Union to reduce the economy's lag behind the developed capitalist states, which was carried out from May 1929 to June 1941. The official task of industrialisation was the transformation of the Soviet Union from a predominantly agrarian state into a leading industrial one.

History of the Soviet Union (1982-1991) - Wikipedia  
In September and October 1939, the Soviet government compelled the Baltic states to conclude mutual assistance pacts which gave it the right to establish Soviet military bases. In May 1940, the Soviets turned to the idea of direct military intervention, but still intended to rule through puppet regimes. Their model was the Finnish Democratic Republic, a puppet regime set up by the Soviets on ...

This was a time of transition for Ukraine. While it had attained nominal independence from Russia, its presidents maintained close ties with their neighbours. On June 1, 1996, Ukraine became a non-nuclear nation, sending the last of the 1,900 strategic nuclear warheads it had inherited from the Soviet Union to Russia for dismantling.

In Russia, efforts to build communism began after Tsar Nicholas II lost his power during the February Revolution, which started in 1917, and ended with the dissolution of the USSR in 1991. The Provisional Government was established under the liberal and social-democratic government; however, the Bolsheviks refused to accept the government and revolted in October 1917, taking control of Russia.

Russian Soviet Federative Socialist Republic - Wikipedia  
Many of the issues have been attributed to policies that were made during the early Soviet Union, at a time when many officials felt that pollution control was an unnecessary hindrance to economic development and industrialization, and, even though numerous attempts were made by the Soviet government to alleviate the situation in the 1960s, 1970s and 1980s, the problems were not completely solved.

History of Russia - Wikipedia  
The post-Soviet states, also known as the former Soviet Union (FSU), the former Soviet Republics and in Russia as the near abroad (Russian: ???????? ??????????, romanized: blizhneye zarubezhye), are the 15 sovereign states that were union republics of the Soviet Union, which emerged and re-emerged from the Soviet Union following its dissolution in 1991.

Eurasian Economic Union - Wikipedia  
Summary. Vladimir Lenin was voted the chairman of the Council of People's Commissars of the Soviet Union (Sovnarkom) on 30 December 1922 by the Congress of Soviets. At the age of 53, his health declined from the effects of two bullet wounds, later aggravated by three strokes which culminated with his death in 1924. Irrespective of his health status in his final days, Lenin was already losing ...
