provides insights into human shortcomings in recognizing and dealing with complex situations. It's not that we're not smart, but our cognitive processes are in turn, petulant, impatient, and lazy.

## **Amazon.com: The Logic Of Failure: Recognizing And Avoiding ...**

The Logic of Failure is an exploration of some of the prominent factors affecting our ability to plan and act. Factors that are at no lack to anyone, but seem to slip away through our common sense (which just means our present and available brain capacity or capabilities); factors such as temporal configurations, realizations of non-linear relationships, tendency to employ methodism, etc.
