The Logical Thinking Process by William Dettmer is a significant step forward in Theory Of Constraints based planning. This is a book I bring with me on every job I do. The video review contains a (more or less) chapter-by-chapter overview.

What Is Logic? What Is Critical Thinking?

Critical thinking is the analysis of facts to form a judgment. The subject is complex, and several different definitions exist, which generally include the rational, skeptical, unbiased analysis, or evaluation of factual evidence. Critical thinking is self-directed, self-disciplined, self-monitored, and self-corrective thinking. It presupposes assent to rigorous standards of excellence and ...
