The Norton Book of Science Fiction. Ursula Le Guin and Brian Attebery (eds) " Why is the fiction of the impossible the primary form? Perhaps because human thinking is predicated on our capacity (related to our capacity for language?) to conceive of what is not true--and because this faculty (for lying, for imagining) gives us, like all our faculties well used, intense delight and the knowledge of power.

The problem with this book is that it's a "Norton Book" and will be used as a teaching tool. Due to the prominence of Norton's stuff on college campuses, it's easy to imagine students who don't have much experience with written science fiction taking classes from professors who don't have much experience with written science fiction, using this book as a resource.
