In 2013, the ASC Executive Board implemented a formal
process to ensure that these position statements and
guidelines are current and represent the best possible
position for our members and the ASC. The guidelines or
position statements expire or are retired by the Society
when appropriate.

Education - American Society of Cytopathology
Cytopathology is a diagnostic technique that examines cells
from various body sites to determine the cause or the nature
of disease. The first cytopathology test developed was the
Pap test which has been widely utilized in the last 50 years
for screening and diagnosing of cervical cancer and its
precursors.
