By building vertical farms anywhere, we can feed people everywhere. Equally important, the environmental impact of Infinite Harvest's vertical farm is significantly less than that of a traditional farm, even an organic farm. Infinite Harvest's year round growing cycles means seasonality is no longer an issue.

Benefits of Vertical Farming. With vertical farming any type of food that can be grown can be grown at any time of the year. Produce unavailable for large periods of the year, or in large areas of the world, can be grown and supplied all year long. This means food can be grown anywhere to feed people in need and service the needs of consumers.
