International relations is the study of the interaction of nation-states and non-governmental organizations in fields such as politics, economics, and security. Professionals work in academia, government, and non-profits to understand and develop cooperative exchanges between nations that benefit commerce, security, quality of life, and the environment. Our richly connected, complex world ...

What is International Relations | What is International Studies

You'll be learning about the three main strands of politics: government, international relations, and political theory. Much of your study will focus on controversies in history and how they were resolved, as the primary role of modern politics is to prevent and resolve the same challenges. You can, obviously, expect to be involved in a lot ...

Politics - UCAS

Although realism has been the dominant international relations theory since World War II, realist theories are inadequate to explain the growth of institutionalized alliances in international politics. Realism misses the importance of international institutions in facilitating cooperation and overcoming fears of domination and exploitation.
