The VK 45.01 (P) was the official designation for an unsuccessful heavy tank prototype produced by Porsche in Germany in 1942. It was intended for production and the Henschel design to the same specification was produced as the Tiger I. Most of the already produced chassis were used as Elefant tank destroyers.

Tiger I - Wikipedia

"The King Tiger is a tank designed essentially for defensive warfare or for breaking through strong lines of defense. It is unsuitable for offensive and highly mobile warfare because of its great weight and low speed. To accommodate the gun, the turret has been made unusually long, extending to the total length of the tank.

Panzerkampfwagen Tiger Ausf.B (Sd.Kfz.182) Tiger II

Development of the Panzerkampfwagen Tiger Ausf.E. Despite the decision to mass produce the Pz.Kpfw.III and IV, and the far certainty that these two models would be adequate for the expected battles of the future, the German general staff also called for an even heavier tank.
