Read Your Google Ebook. You can also keep shopping for more books, free or otherwise. You can get back to this and any other book at any time by clicking on the My Google eBooks link. You'll find that link on just about every page in the Google eBookstore, so look for it at any time.

Trader Machinery

My son and I do metal and woodworking in our shop. We make some of the smallest inlay in the world. The duck call pictured has over 1,117 individual pieces of wood in it. You can learn more about our shop on our About Us page, or Ozarkwoodworker.com.. We also try to help others identify their machines, and share some of the knowledge we've received over the years of experience with ...

Varmint Al's Mini Lathe Page

The cylindrical grinder is a type of grinding machine used to shape the outside of an object. The cylindrical grinder can work on a variety of shapes, however the object must have a central axis of rotation. This includes but is not limited to such shapes as a cylinder, an ellipse, a cam, or a crankshaft.

Tos Lathe Manual

Number of Pages: 42 This is a reproduction, not a photocopy, of a South Bend Parts Manual and Catalog for 9" & 10" Lathes. I included a short descriptive catalog to help identify which lathe a person has, because there were many different models. This manual contains information on lubrication, adjustments, maintenance, and controls as [...]
