### **The Simple Solution to Toyota 1KD White Smoke On Start-up ...**

The early Hilux and Prado D4D injector seals are faulty and they allow carbons to leak up the side of the injector and into the engine oil. This can mean the oil pick up gauze strainer gets clogged and, like this poor Prado, no or low oil pressure due to the carbon clogged oil pickup strainer and now engine damage.

### **D4d turbo actuator problem - 4x4 Community Forum**

While generally well-known in the mechanic community, consumers should be aware that Toyota 1KD engines have a very specific problem. 'The 1KD white smoke on start-up, besides the obvious white smoke is symptoms of rattling / knocking noise in the first two or three seconds after start up.

### **Anyone owned or got a Toyota Avensis diesel? - Page 1 ...**

What is your general opinion of Toyota's 1.6 D4D engine? I hear it is BMW supplied and was wondering does it suffer from any DPF issues? I currently drive a Yaris Hybrid and fuel economy is dreadful in this cold weather and it is not really suitable for long distance motorway driving. I cover 20000 + miles per year. - For more news, reviews and Top Tens, visit <https://www.honestjohn.co.uk>

### **Toyota 2.2 Diesel - We Need To Replace Your Engine, Sir ...**

Beyond the costs (expensive) of these items, a sticking injector can cause fuelling problems that will lead to catastrophic engine failure, so any injector rattle should be seen as a big danger sign. Below, you can see the difference between a properly running common rail engine and one with rattle on this Prado D4d.

### **Toyota. Don't say you don't know about... - Berrima Diesel ...**

I am absolutely new in this community and recently bought a D4D Rav4.2 diesel model year 2005. From the day I bought it, I noticed that the starting was not as fast as I expected it. I know the starting behaviour from other diesel cars mainly BMW and Mercedes and I think the Toyota takes a little longer to start than the other ones I know.

### **Toyota 30 D4d Engine Problems**

Toyota's 2KD-FTV engine, also known as 2.5 D-4D, is a 2.5-liter inline four-cylinder turbo diesel engine. The engine has been produced since 2001 at a Japanese Toyota's plant and is installed in the Toyota Fortuner and 4Runner SUVs, Hilux pickups, and Innova, Hiace minivans.

### **Toyota 1KD-FTV Piston Failure | Southside Cylinder Heads ...**

The vehicle has 180,000km on the clock but has been immaculately maintained, FSH at Toyota, injectors well within spec, never towed any heavy loads, and always fed good diesel. I'm starting to wonder whether all those troubleshooting steps you followed shouldn't be the kind of mid-life proactive maintenance we all need to do on our D4D engines.
