Trade Policy Disaster: Lessons from the 1930s on JSTOR

In Trade Policy Disaster, Douglas Irwin examines what we know about trade policy during the traumatic decade of the 1930s and considers what we can learn from the policy missteps of the time. Irwin argues that the extreme protectionism of the 1930s emerged as a consequence of policymakers' reluctance to abandon the gold standard and allow their currencies to depreciate.

Lessons for the Coronavirus Crisis From Six Other Disasters

This is why the IFRC is collaborating with the WTO in the research project on trade and disasters launched at the WTO Natural Disaster and Trade Symposium. The research seeks to shed light on the connections between trade and natural disasters, not just in terms of challenges but also how the relevant legal frameworks and policies can have a positive impact on the issues at hand.
