1970 Triumph TR6 Restoration Project - Part 13 - Assembling the Front Suspension

From humble beginnings as a bicycle manufacturer, Triumph began building motorcycles in 1902. In 1921 Triumph acquired the Dawson Car Company and began building automobiles beginning with the 1.4L Triumph 10/20. In the 1930s they changed their name to the Triumph Car Company, and spun off the motorcycle division into its own company in 1936.

Emissions Removal | Triumph TR6 | MG-Cars.net

Re: tr6 wiper motor wiring i have a suggested wiring diagram from another forum. i am in the process of bench wiring the motor and switches to see if it works. also i am considering fabricating a mount for the motor on the passenger side of the car as the healey mount is not friendly to the tr6 mounting strap. it does seem to be a much bigger ...

Triumph Tr6 Engine Diagram

Hi guys, I just bought a 1972 Triumph TR6 with the heads pulled and much of the engine bay pulled as well. I'm unfamiliar with the engine bay (like what goes where, and what everything is etc) and I was wondering if any of your out there could help me identifying the elements in the engine bay (various cables, hoses, etc).
