How to Create a User Manual (with Pictures) - wikiHow

A user manual is traditionally a large book containing detailed information on many different aspects of a program, including processes and major features. This kind of document is expected to consist of more than one chapter built in a fully structured sheet with a table of contents, numerous sections, and an index at the end.

Tips for writing user manuals

When writing a manual, you need to put on a "user's hat" and think like a user. You should have a good understanding of your users so you can understand the information they need to know, their background, and their knowledge of the product. Once you think like a user, you can write content that the users need to know.
