Record information comes from such sources as control survey maps, filed survey notes, construction plans, government data sheets, etc. Most of the record information should be assembled prior to the field survey. Where practical, the source or authority should be cited for the acceptance and use of any found point.

SURVEYING I B.V.KHODE

Chain survey is the simplest and commonest method used in surveying exercises. Because of its ease of use, it is used during reconnaissance survey as a quick method of surveying to get a rough idea in the location to be surveyed. After participating in this fieldwork students will become more comfortable with handling chain and ranging rods.
