Valiant, Dart, etc. engine list with horsepower ratings
Work on the powerful 245 "Hemi Six" started in 1966, with surprisingly good results. The engine, produced in 215, 245, and 265 cubic inch versions, took amazingly well to increased carburetion. Equipped with that six, the 1970 Valiant VG could run the quarter mile in 16.4 seconds: the Pacer, with a four-barrel carb, could do it in under 16.

Chrysler Valiant Free Workshop and Repair Manuals
It's 2.8-liter six-cylinder engine produced 115hp. Over the course of the next couple of years, visual tweaks were relatively minor, as were internal changes. In 1970, a new 3.2-liter six-cylinder engine appeared. In 1971, the Plymouth Valiant Scamp appeared, and was basically a Dodge Dart Swinger with different badges.
