Vehicle = 2003 1.8t awp Jetta My question is about reamer and valve driver size. Bently says valve stem diameter is Intake = 5.963mm Exhaust = 5.943mm max tolerance is .8mm for play of the valve in the guide. Bently doesnt list a min tolerance. So what size reamer should I use and what size valve guide

driver? After some searching and reading people have suggested a 7mm reamer.
