### How to replace timing belt cambelt on 1.6 1.8 Zafira Astra Vectra Z16XER Z18XER

The timing belt links up the top and bottom parts of the engine. The belt matches the timing of the valves and ignition with the timing of the pistons inside the engine. What it does is keeping everything in check, to ensure your engine runs smoothly. Incorrect timing of the engine can be due to many things. Often it's not even the belt itself.
