Villiers 2t 250cc Twin Engine for sale | eBay

The Villiers twin is a 50mm x 63.5 unit with cast iron barrels and Villiers experts favour the 2T over the later 4T design due to latter 's harshness. The competition Norman had a tuned engine, with a 25mm carburettor and a compression ratio of 10:1 , as opposed to 8.25:1, but the B4 was restricted by a 22mm carb so ran out of puff at 70.

Greeves sports twin

An introduction which excited many interests in 1956 was that of a new twin engine, the 2T. The vertical twin had a bore and stroke of 50mm x 63.5mm giving 249cc. Each barrel had its own crankshaft, separated by a central disc in the crankcase holding a central bearing with a roller bearing on the magneto side and a ball bearing on the sprocket side.

Villiers Engine Identification - Classic Motorcycles by ...

The James machine became available the following year and was driven by a Villiers 2T two-stroke, twin cylinder engine with a bore and stroke of 50mm by 63mm to give a capacity of 247cc. This and the four-speed gearbox sat in a composite frame – there was a front and top downtube, a fabricated central section and pressed rear mudguard; front suspension was telescopic forks and brakes were six inch drums.

#### VilliersInfo for Villiers information and Parts

Villiers manufactured a range of single and twin two-stroke engines (from 98 cc to 325 cc) for light motorcycle and vehicle manufacturers until the 1960s. In the early 1960s, the company was taken over by Manganese Bronze Holdings , and in 1966 together with AMC became Norton-Villiers , and in 1972 merged with the BSA group to become Norton-Villiers-Triumph , which eventually went into liquidation in 1978.

#### The Villiers Story

The engine will not pull the fuel through.I have done all the obvious things eg carb is fine,compression is good.I have taken the top part of the engine apart 3 times looking for a fault but all areas check out fine.I am now ready to torch it so this is it's last chance. ... villiers 2 stroke 250 twin? ...
