The Japanese made Vixen Super Polaris is well designed, high quality, low cost German Equatorial Mount (GEM) for use with telescope Optical Tube Assemblies (OTA) weighing up to 16 pounds. Celestron and other US companies including Astro Physics sold the Super Polaris with their telescopes for over decade. ... See Super Polaris Manual.

Celestron SP-C6 with Super Polaris and DMD-2 controller ...

Another case in point... The Vixen Polaris mount. This is an old mount design, having gone out of production LONG ago. It was superseded by the Vixen Super Polaris, then later, the Great Polaris which really is too bad. Now today, there is MUCH emphasis on "Grab and Go" telescopes that have moved out into the yard for "Quick Looks."

Company Seven | Vixen GPE German Equatorial Mount page

I have an old Vixen GP Polaris mount which I am guessing is about 30+ years old, what I am wondering is if it would improve its smoothness when tracking for imaging if I apply new lubrication to the gearing from the RA motor drive, if anyone has any experience I would be most grateful.

Lubricating old Vixen Polaris Mount? - Discussions ...

I used the CG-4's predecessor, the legendary Celestron/Vixen Super Polaris mount, years ago with CG-3 and C8 telescopes. The Super Polaris was a good mount for its time, but the CG-4 is better in many ways. The heavy-duty steel tripod, for one thing, is a big improvement over the wooden surveyor's tripod that came with the Super Polaris mount.

Vixen Polaris | Astromart

If you're like me, you got your Polaris Polar Scope and then sat and scratched your head after some very convoluted instructions in a PDF file. Having experience with other polar scopes and mounts, I knew this had to be easier than it appeared. So I sucked up my pride and called Vixen and asked for a talk-through on this.
