Recall Information | Volvo Penta

Volvo Engine Problems Volvo is a long-established maker of quality in-line engines.

Get Free Volvo Boat Engine Problems

Volvo engines are numbered according to a particular code which indicates the year they are manufactured, the type of fuel used, engine displacement and number of valves per cylinder.

Volvo Penta 4-cylinder marine engine problems.

One possible contaminant is air. If air enters the injector pipes, the engine will stop because the air will act as a shock absorber, preventing the fuel pressure from rising high or quickly enough to be sprayed into the cylinder. This is a common problem
