Volvo D12 Engine Oil Pressure

I am having trouble with oil pressure gauge, it shows that i have low oil pressure and then the engine shuts off. Even in ignition the oil pressure gauge stays in 30. While i am driving it goes up and down, and it gives me a warning, then i have to stop the engine. Does anybody know if this is a gauge issue or oil pressure sensor. Please advise

Starting the engine Make it a habit to give the engine and engine bay a visual check before starting. This will help you to discover quickly if anything abnormal has happened, or is about to happen. Also check that instruments and warning dis- plays show normal values after you have started the engine.

Volvo Truck Oil Pressure Sensor | Product Overview | OTR Performance

Exhaust Rocker Arms. The exhaust rocker arms on an engine with a compres- sion brake are larger than those on a conventional engine. The rocker arm includes a non-return valve (2) and a plunger (3) with a pressure limiting valve, the purpose of which is to regulate the oil flow during compression brak- ing.

Oil & Fuel Pressure Sensor 21634021 For VOLVO D12 D13 Truck

Volvo Trucks North America engineered the 465 horsepower VE D12 engine. A heavy-duty diesel engine, the VE D12, delivers between 800 and 900 foot-lbs. of torque at 465 horsepower. This strength of force is countered with an engine brake that uses 350 horsepower to stop 23 engine revolutions per minute.
