Diesel engines - Wärtsilä - Wartsila.com  
Wärtsilä (Finnish: [??ærtsilæ]) is a Finnish corporation which manufactures and services power sources and other equipment in the marine and energy markets. The core products of Wärtsilä include large combustion engines used in cruise ships and ferries. As of 2017 the company employed close to 18,000 workers.

Wärtsilä 5ODF Specifications - Information - Dimensions  
The engine has ported gas admission and a prechamber with a spark plug for ignition. The engine runs at 720 or 750 rpm for 60 or 50 Hz applications and produces 8700 and 9000 kW of mechanical power, respectively. The efficiency of the Wärtsilä 34SG is the highest of any spark-ignited gas engines today.
