What's the difference between a REST system and a system that is RESTful? From a few things I've read most so called REST services are actually RESTful services. So what is the difference between the two.

architecture - What's the difference between REST ...
The difference between 0.0.0.0 and the loopback address 127.0.0.1 is that the loopback address is designed to allow a fully functioning IP interface within the host itself, regardless of what the rest of the networking setup, if any, looks like. Any traffic sent to the loopback device is immediately received on it.

What's the difference between IP address 0.0.0.0 and 127.0 ...
The distinction stems from research on the "Focus Theory of Normative Conduct" (e.g., Cialdini et al. 1990) Injunctive norms refer to the perception of what ought to be, or as you state, perceptions of what is approved or disapproved by others.. Example: If you think that other people would consider tax fraud as something that is morally wrong, you would perceive an injunctive norm.

social psychology - What's the difference between ...
However, discussion of one's past is not a focus in either form of therapy, nor is it a differentiation between the two forms (it is completely dependent upon the individual psychotherapist).

What's the Difference Between CBT & DBT?
