Amazon.com: Electric Dryer Surge Protector

After a recent power surge blew that out our refrigerator's circuit board (a \$750 repair), a generic surge protector and a space heater circuit board, all on different circuits, I decided to look in to protecting our refrigerator and other appliances from possible future problems.

Surge protector? | ApplianceBlog Repair Forums

Most surge protectors like these have very dubious benefits, apart from a bit of a feel-good factor. I have worked in telecommunications for over 30 years including installing engineered lightning protection at many hills/rural environments.

Surge protection is the protection of electrical & electronics equipment from damaging voltages when a surge or pulse of abnormal voltage arrives on a wire or cable. Lightning rods, etc are related but different & not covered here. If your house is directly hit by lightning, the below will be less useful...
