Oni (? (??)) is a kind of y?kai, demon, ogre, or troll in Japanese folklore. They are typically portrayed as hulking figures with one or more horns growing out of their heads. Stereotypically, they are conceived of as red, blue or white-colored, wearing loincloths of tiger pelt, and carrying iron kanab? clubs. This is a symbol of the dark side.

### Oni - Wikipedia

Of course, psychologists' doubts — and those of countless others throughout history — haven't curtailed religion's powerful hold on humans. Religion has survived and thrived for more than 100,000 years. It exists in every culture, with more than 85 percent of the world's population embracing some sort of religious belief.

### A reason to believe

A criticism often flung at evolutionary studies of human behaviour is that, in revealing the origins of the human psyche's darkest aspects, they might substantiate our worst traits. The hysteria ...

The Black Seminole culture that took shape after 1800 was a dynamic mixture of African, Native American, Spanish, and slave traditions. Adopting certain practices of the Native Americans, maroons wore Seminole clothing and ate the same foodstuffs prepared the same way: they gathered the roots of a native plant called coontie, grinding, soaking, and straining them to make a starchy flour ...
