Did you hear about algebra with pizzazz answer key page 8

Following the order of operation is important; otherwise, you'll end up with the wrong answer. Suppose you have the problem $9 + 5 \times 7$. If you follow the order of operations, you see that the answer is 44. If you ignore the order of operations and just work left to right, you get a completely different — and wrong — answer:

Algebra 1 : How to find out when an equation has no solution

For that, we use the theory of linear algebra. We define what is a vector and what we mean by a vector been generated by other vectors. We say that if a vector is some linear combination of other vectors - with respect to elements of some field (a vector space must have a field in the definition, usually this field is \mathbb{R} or \mathbb{C} ...
