Science and Worldviews (cultural influences)

Worldviews act somewhat like eye glasses or contact lenses. That is, a worldview should provide the correct “prescription” for making sense of the world just as wearing the correct prescription for your eyes brings things into focus. And, in either example, an incorrect prescription can be dangerous, even life-threatening.

Worldviews can and do change. In general, worldview has been most influenced by religion and science . If science teaches us that the planet is part of a closed system and the Earth is winding down, with limited resources and in time will simply use itself up, then a worldview of scarcity is likely to result.
