Fk Standard Rebuild WP 4CS  
On a closed cartridge fork the oil level setting is based on a quantity, measured in cc's or ml's, (same thing). Usually in the range of 360 to 400ml, but KTM or WP doesn't really give a range like KYB or SHOWA (Japanese bikes) do. And you don't need to break the cartridge down, or even drain the oil in the lower chamber to change the springs.

## Where To Download Wp Closed Cartridge Manual

Closed chamber bladder forks only. Besides the usual harshness, deflection, and spring rate issues, the WP closed chamber bladder fork has a pressure build-up issue that is very labor intensive to correct. This service is HIGHLY RECOMMENDED for ALL applications, especially when competing in events that require non-stop riding for 2-3 hour periods.
