Xr 750 Engine

The Harley-Davidson XR-750 is a racing motorcycle made by Harley-

Davidson since 1970, primarily for dirt track racing, but also for road racing in the XR750 variant. The XR-750 was designed in response to a 1969 change in AMA Grand National Championship rules that leveled the playing field for makes other than Harley-Davidson, allowing Japanese and British motorcycles to outperform the ...

Harley-Davidson XR750 Cut away bike - National Motorcycle ...

The best of the side-valve engines and the early "waffle-iron" XR push-rod motors gave around 64 horsepower. The new motor produced 73 hp straight from the drawing board and revved to 8200 rpm with comfort. Interestingly, current well-tuned XR engines are giving over 90 hp, which is not bad for a two-valve 750!

Motorcycle Parts for Harley-Davidson XR750 for sale | eBay

The XR-750 Harley-Davidson flat track race bikes with the Iron Head engine raced in the 1970-1971 season. They were reasonably successful when the conditions were cool and the races were on the short side but

were not competitive when conditions were hot and/or the races were long.

**The Harley-Davidson XR-750 - What You Need To Know (A ...
1980 Harley-Davidson XR-750, Purposely built for dirt-track racing, the XR-750 has had 30 years of development and was designed in response to a 1969 change in AMA Grand National Championship rules that leveled the playing field for makes other than Harley-Davidson, allowing Japanese and British motorcycles to outperform the previously dominant Harley-Davidson KR race bike.**

Harley XR750

The iron-based XR-750 engine proved to be a temperamental, yet worthy, stop-gap solution that allowed Harley's race team engineers time to regroup and develop the all new alloy-based engine that would be even more powerful.

Harley-Davidson XR-750 - Wikipedia

The AMA Grand National Championship Class C rules which governed flat track racing for countless decades carefully stipulated that flathead and side-valve engines could have a swept capacity of up to 750cc, whereas overhead valve (and overhead cam) engines were limited to 500cc.

Race Track Refugee: Harley-Davidson XR750 - Classic ...

Starting in 1969 on dirt and 1970 on pavement, the new rules allowed a 750cc limit for all engine designs. Dick O'Brien and the Harley team began a crash course and came up with the new XR750, which in basic design was a destroked iron cylinder Sportster engine.

Engines & Parts for Harley-Davidson XR750 for sale | eBay

In 1972, a bigger bore, shorter stroke motor replaced the 750cc Ironhead XR. Most everything in the motor was gone over and strengthened, including pistons, rocker boxes and rockers. Connecting rods became shorter and lighter. Compression ratio was raised to 10.5:1, allowing the engine to produce over 80 horsepower reliably. XR750 Alloy Heads

EXCLUSIVE FIRST LOOK: Harley-Davidson's New XG750R Flat ...

The bars, tank, engine tires... it all looks perfect. It is shown on a crate that looks fresher than 1980, so we suspect it was recently made ready for shipping. We can imagine the XR owners out there who would love to get their paws on the NOS components on this bike, but you can be certain that this one won't be parted.
