It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator -- a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

I've grabbed the Zune user manual from the FCC site and have dug into it a little to learn more about Zune. Below are some of the key points from the user manual, but you can check it out for yourself as well. Clearly, this is a very rough, spartan user manual. It doesn't need to be pretty to meet FCC approval, it just needs to have the basics.
